

AUTOMATED GUIDED VEHICLES

Automated guided vehicles (AGVs) are mobile vehicles programmed to transport materials in a facility. They are used across numerous industries to compensate for employee shortages, reduce labor costs, and increase warehouse efficiency. By minimizing human interactions with transported loads, AGVs can significantly decrease the damage of goods and industrial accidents in your facility.

Our AGVs comply with EN ISO 13849 standard and fulfill the highest safety requirements of the design and integration of safety-related parts of a control system. Safety laser scanners of our AGVs detect obstacles and activate a stop mechanism that gradually slows down and stops AGV to prevent collisions. Light and sound warning systems allow safe and accident-free cooperation of AGVs and operators in the same area.

AUTOMATED GUIDED VEHICLES

Tugger AGV

Pin-hook AGV

Conveyor AGV

Forklift AGV

LODAMASTER HQ

Orta Mahalle Ordu Sokak
No:23 A Blok Kat:8 İzPark
Kartal - İstanbul, Türkiye
E-mail: info@lodamaster.com
Office: +90 216 305 05 07

ARGEVI

Zümrütevler Mh. Ural Sk.
No:14 Kat:2
Maltepe - İstanbul, Türkiye
E-mail: info@argevi.com
Office: +90 216 353 60 10

LODAMASTER TECHNIC

İnönü Mah. Gebze Plastikçiler OSB
9.Cad No:3 41400,
Gebze - Kocaeli, Türkiye
E-mail: info@lodamaster.com
Office: +90 262 502 18 09

LODAMASTER EUROPE

Håndværkervej 26, DK-6270,
Tønder - Danmark
